Planning Staff Discussion:

Petitioners state that they own the adjoining properties which have been developed as a strip commercial center. The street is not necessary for ingress or egress, and much of the right-of-way has been paved for a parking lot for the commercial center. Additionally, an existing building encroaches the non-paved area.

Staff does not feel that this right-of-way is needed for any access concerns, nor for future growth of the city. Approval of the vacation petition would not impact any other property owner, and would in fact allow the potential for future growth.

Recommendation: Conditional Approval, contingent upon the petitioners providing utility easements or relocations as needed, and for the following reasons:

- 1) The right-of-way is not needed for access to any property, or for future growth of the city.
- 2) Approval would not impact any other property owners.
- 3) Approval would allow for potential growth of the existing development.
